

Unparalleled Property Services

Unparalleled Property Services

Who We Are

Castle Group is the premier choice for property management, specializing in serving the finest residential communities. The company's philosophy is an unwavering focus on the Resident experience; at Castle it is called Royal Service®. Since no two properties are identical, Castle has created a menu of services that allows customers to create a solution that fits their needs. Castle does not manage an exceptional number of communities, just a number of exceptional ones.

Castle Services

- Association Management for Condominium and Homeowner Associations
- Accounting and Financial Support
- Options for Self-Managed Communities
- Developer Services
- Lifestyle and Social Management
- Food & Beverage Management

What We Provide

TEAM

The Best People

Castle attracts, trains and retains the most exceptional employees in the management industry. We accomplish this through a highly detailed selection process and continuous training. Being voted a “Best Place to Work” for multiple years has reinforced this sentiment.

The Best Systems

We understand that timely and relevant information is critical to the success in operating a property. We believe communication between Castle, the Directors, and residents is key. Castle has the ability to customize a dashboard that will allow the Board online access to real-time financial and operational information as well as any specific metrics they would like to monitor.

The Best Technology

Castle’s focus on technology is unmatched in the community association management industry. We employ a staff of programmers whose sole focus is to create tools that increase efficiency in the associations we manage. This is accomplished by overlapping best practices and customized technology solutions for each of our customers.

Selection & Training

Before a candidate is offered employment with Castle, we conduct a thorough background check. This includes license and education verification, a criminal background search, as well as a pre-employment drug screening.

Candidates also undergo an in-depth skills examination, are tested in technology proficiency and are given a personality assessment. We utilize these results to assist us in identifying the top talent in the industry.

All members of our team complete an extensive new hire orientation process, which includes formal training in Castle's Royal Service[®] key fundamentals.

At Castle, we believe the resident experience is enhanced by providing the highest level of customer service. Site-specific training is also included as supplemental training, based upon the Community's needs and requests.

Royal Service®

Castle's focus is to create an unparalleled resident experience for owners living in Castle managed communities.

After attending the Ritz Carlton's Legendary Service School, James Donnelly, Founder & Chairman, and his team created Castle's Royal Service® program. Royal Service® has many detailed components. Ultimately, it's about creating an environment where every resident feels important and cared for. We warmly welcome and greet our residents, anticipate their needs and ultimately exceed their expectations. Castle Group is dedicated to providing Royal Service® to every resident and guest allowing them to experience their community through the highest level of professionalism and attention to detail. It is our goal to create memorable moments at every opportunity when interacting with Directors, residents, guests and vendors.

Why Professional Management

Experience - Through years of trial and error, Professional Association Management companies specialize in bringing industry best practices to your community.

Personnel - A management company can provide a full team of trained management professionals and take on all of the human resources, payroll, training, insurance, and other employer responsibilities. This includes recruiting replacement personnel if required.

Compliance - Management companies can ensure your Association stays in compliance with the ever-changing regulatory environment.

Technology - Management companies have state of the art technology in the areas of communication, web applications, security, finance, reporting, and resident convenience.

24 /7 Coverage - Most management companies have 24/7 coverage, and licensed staff on call for all Association emergencies.

Cost Savings - Through economies of scale and better visibility to market pricing, professional management companies can identify areas of cost savings. In most cases, professional management companies provide a higher level of service at a lower cost.

Accounting & Financial

Castle Group offers accounting insight not found with other property management companies. Our Community Accountants are dedicated to your community, and we work closely with your Board of Directors to gain a true understanding of the financial nuances of your community. We analyze your Association's financial position and benchmark expenses against other similar operations. This process, which we call the "Castle Value Challenge," allows us to identify cost savings opportunities and streamline expenses.

On a monthly basis, we provide your Board of Directors with a report of the current financial data along with our analysis and recommendations.

Association Management

Castle's Association Management team provides a complete suite of services to operate the administrative, financial, physical and people aspects of your Community Association. We have organized our company to provide specialized services for homeowner Associations, low-rise condominiums, high-rise condominiums, and self-managed properties. We recognize that the operations of each of these types of associations is unique and requires specific expertise and experience to operate at the highest level.

Lifestyle Services

We believe that in order to build a sense of community, an Association must offer a variety of fun and interesting activities that will engage the members of the community. At Castle, we have developed a Lifestyle Services Group to coordinate specialized social offerings that include entertainment, fitness, crafts, dancing, games, lecture series, language studies, sports, movies, and much more. Many residents enjoy volunteering for community programs, and we encourage their participation. Using our extensive resources and event planning systems, we work with our residents to identify and implement activities and programs in which they have the greatest interest.

CastleCares®

CastleCares® was officially formed in 2010 with the vision of developing our already strong philanthropic base. CastleCares® holds monthly meetings with passionate volunteers from across the Castle Group team, coming together to make a meaningful impact in our communities. These compassionate individuals volunteer their time and talent to organize positive and effective ways of giving back to communities in which we serve.

CastleCares® mission is to support children and families in need throughout the State of Florida. Each year CastleCares® donates a percentage of our profits to various worthy organizations and contributes thousands of volunteer service hours to support those less fortunate. Castle Group is very proud of the accomplishments made possible by our outstanding, caring, and giving employees through their participation in CastleCares®.
